

ABDUL RAHIM

Frontend Developer | [React.js](#) | [JavaScript](#)

Pakistan • raheemkhan.rk12345@gmail.com • +92 313 9884980 • [GitHub](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive web applications using **React.js, JavaScript, HTML5, CSS3, Tailwind CSS, REST APIs, and Git/GitHub**. Experienced in reusable React components, API integration, client-side routing, protected and role-based routes, state management, and converting UI designs into responsive interfaces. Currently working as a Frontend Developer at CodexDev.

PROFESSIONAL EXPERIENCE

Frontend Developer — CodexDev

Present | Pakistan

- Develop responsive and interactive web applications using React.js, JavaScript, HTML5, CSS3, and Tailwind CSS.
- Convert UI designs and requirements into reusable and maintainable React components.
- Integrate REST APIs using Axios/fetch and handle API responses, loading states, and errors.
- Implement React Router navigation, including protected and role-based routes.
- Work with React Hooks and Context API for application state and reusable logic.
- Collaborate through Git/GitHub using feature branches and team workflows.
- Debug frontend issues and improve responsiveness, functionality, and user experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Responsive Web Design

React: React Hooks, useState, useEffect, Context API, React Router, Protected/Role-Based Routing, Reusable Components

APIs: REST APIs, Axios, Fetch, API Integration, Form Handling, Loading & Error States

Tools: Git, GitHub, VS Code, Figma, Vite, React Icons, Lucide Icons

SELECTED PROJECTS

CNG Pump Management System

React.js • JavaScript • CSS • React Router • Axios • REST APIs

- Built a management frontend with separate Super Admin and Admin interfaces and role-based protected routes.
- Integrated APIs for sales, expenses, cash & bank transactions, loans, and pump management.
- Created reusable dashboards, forms, modals, tables, statistics cards, pagination, and API-driven views.

Crown Elite Hall — Wedding Hall Management System

React.js • JavaScript • CSS Modules • React Router • REST APIs

- Developed a responsive booking and management platform covering dashboard, bookings, availability, financials, reports, calendar, notifications, settings, and invoices.
- Built reusable React components and connected frontend workflows with REST APIs.

School Management LMS

React.js • JavaScript • CSS • React Router • Context API

- Developed a role-based Learning Management System frontend for Students, Teachers, Parents, and Administrators.
- Implemented role-specific dashboards, protected routes, reusable components, and responsive interfaces.

CodexDev Company Website

React.js • JavaScript • CSS • React Router

- Developed a professional company website using reusable React components and responsive layouts.

HealthEase AI

Django • Python • MySQL • Bootstrap • JavaScript

- Contributed to a healthcare management platform with interfaces for patients, doctors, laboratories, and administrators.

E-Commerce Website

HTML5 • CSS3 • JavaScript

- Developed a responsive e-commerce frontend with product-focused interfaces and interactive JavaScript functionality.

EDUCATION

Bachelor of Science in Software Engineering

Sarhad University of Science and Information Technology, Peshawar | 2021 – 2025

CORE STRENGTHS

Problem Solving • Team Collaboration • Communication • Quick Learning • Attention to Detail • Debugging & Troubleshooting • Adaptability • UI/UX Implementation
